## The Goodyear Tire & Rubber Company of Canada, Limited

### ANNUAL REPORT

TO THE SHAREHOLDERS

For the Fiscal Year ending September 30th, 1930

New Toronto, Ontario

### ANNUAL REPORT OF THE DIRECTORS

OF

The Goodyear Tire & Rubber Company of Canada, Limited

Toronto, October 31st, 1930.

To the Shareholders:-

Your Board of Directors submits the Consolidated Balance Sheet of The Goodyear Tire & Rubber Company of Canada, Limited, and its subsidiary Companies as of September 30th, 1930 certified by your Auditors, which sets forth the results of the business for the past fiscal year and the financial position of the combined Companies.

The operations of the combined Companies have resulted in a profit of \$2,407,586.53 before providing for depreciation but after deducting income tax; from this amount there has been set aside a reserve of \$857,182.53 for depreciation on buildings and equipment, leaving a net profit of \$1,550,404.00. This amount of profit is determined after providing for all manufacturing, selling and administrative expenses and income taxes and after writing down the inventories of rubber and fabric and finished stocks to the basis of market prices prevailing at the close of business on September 30th. A reserve of \$410,169.60 has also been established against raw material commitments in order to place these also on the basis of the prices prevailing on September 30th.

In the year ending September 30th, 1929 the Companies' net profits were \$3,488,142.81. The decline in the results of this past year was due chiefly to the general depression in business which was reflected in a falling off in our volume of sales to car manufacturers and for export business and to the decline in the market prices of both cotton and rubber, cotton having declined from 18.85c as of September 30th, 1929 to 10.35c as of September 30th, 1930 (a decrease of 45%) and rubber from 19-1/2 c as of September 30th, 1930 (a decrease of 62%) being the lowest point in the history of the rubber industry.

Since the present market prices of these products are well below the cost of production, it is our belief that they will gradually rise to higher levels.

It will be noted that the earnings for the year, however, were sufficient to pay the usual dividend on the Preferred stock and \$7.50 a share on the Common stock and to increase the earned surplus by \$66,258.00. The earnings applicable to the Common stock were equivalent to \$8.00 a share.

The following summary sets forth the disposition of the earnings of the past year:—

2,335 shares of Preferred stock re-				
deemed	\$	233,500.00		
Dividend of 7% on Preferred stock		519,421.00		
Dividends of \$5.00 per share on Com-				
mon stock		643,150.00		
Bonus of \$2.50 per share on Common				
stock		321,575.00		
Expenditures for additions to plant	an	d		
equipment	1,	,902,924.13		
Increase in deferred charges		3,522.38		
	\$3	,624,092.51		

#### DEDUCT:-

Funds for above disbursements derived from sale of Bonds of Goodyear Cotton Co. of Canada Limited \$4

\$400,500.00

Funds provided from working capital, including reserve for raw material commitments, etc

816,005.98 1,216,505.98 \$2,407.586.53

By reference to the Balance Sheet it will be seen that the Companies have no borrowed money and that the cash balances, consisting of cash, Bonds and Call Loans, aggregate \$4,508,515.99. The total current assets amount to \$9,997,162.78 or over 21 times the current liabilities of \$459,257.43.

The outstanding Accounts Receivable have been carefully reviewed and although collections in Western Canada have not been entirely satisfactory, we feel that the reserve of \$109,239.07 established for bad and doubtful debts is sufficient for this purpose.

Our export business has been adversely affected owing to retarded business conditions in most countries throughout the world. We were especially affected by the boycott on British Empire goods in India, by a special tariff in New Zealand and by disturbed political conditions in South America.

Your Company has always enjoyed a large percentage of the Canadian car manufacturers' business. This percentage has been maintained throughout the year, but owing to a material reduction in the output of motor cars, our sales to car manufacturers have correspondingly decreased. For the past year we enjoyed the highest percentage of dealers and consumers business in the history of the Company. This speaks well for the product, for the Sales organization and for our business policy.

For the past two fiscal years we have expended rather large sums on plant and equipment. Your plants now are adequately, efficiently and economically equipped and for the next two or three years there should be little money required for plant extension.

We do not look for a rapid recovery of business conditions nor for the immediate restoration of prices to the average level of the last five years. Conditions will likely improve slowly but soundly. We anticipate that both the motor car industry and the tire industry will show a marked improvement in volume of sales over that of our fiscal year just closed.

It is the opinion of your Board that the fiscal year of the Company should be changed to correspond with the calendar year, consequently the next Annual Report to the Shareholders will cover a period of fifteen months.

For the Board of Directors

C. H. CARLISLE, President and General Manager.

### PRICE, WATERHOUSE & CO.

Chartered Accountants

ROYAL BANK BUILDING

TORONTO, CANADA

October 27, 1930.

To the Shareholders of

### THE GOODYEAR TIRE AND RUBBER COMPANY OF CANADA, LIMITED:

We have examined the books and accounts of The Goodyear Tire and Rubber Company of Canada, Limited and its subsidiary companies for the year ending September 30, 1930.

We have satisfied ourselves that all charges to Property Accounts are in respect of actual additions, and sufficient provision has been made for accruing depreciation. The stocks on hand have been taken and valued by the Companies at cost or market prices, whichever were lower; the bad debt reserve is considered sufficient to provide for all doubtful accounts; the bank balances and call loans were confirmed by certificates, and we have taken all reasonable precautions to satisfy ourselves that all liabilities as at September 30, 1930 are included in the Balance Sheet.

And we certify that the annexed Consolidated Balance Sheet is drawn up so as to show the true financial position of the Company and its subsidiaries as of that date and the results from the operations for the year ending September 30, 1930 according to the best of our information and the explanations given to us and as shown by the books of the Companies.

PRICE, WATERHOUSE & CO., Auditors.
